Purchase Policy. City Comptroller John Harris presented the Commission with a new purchase policy that will place the Department Head responsible for all expenses in their respective areas. This policy will also simplify things for Accounts Payable who will no

longer pay invoices without following the proper procedures. **Mayor Spencer made a motion to accept the purchase policy, seconded by Commissioner Bentley with all eyes being cast. Motion carried 4-0.**

Vac Truck. Public Works Director, Dave Bollinger asked the Commission for their approval to purchase a non CDL vac truck and a new camera system. According to Bollinger, the current camera system is old and obsolete. Mr. Bollinger says by purchasing a vac truck there will no longer be a need to hire Popeye's or Shelby Trucking to clean out lift stations. Bollinger also said the floodwall committee could hire the city to clean out storm drains instead of Popeye's. Mr. Bollinger says the truck will cost \$434,000 and the camera system will be \$134,000. The City's current jetter and old camera system can be traded in to help offset the cost. City Comptroller John Harris said he and Mr. Bollinger have discussed cutting back on the water meter purchases beginning next fiscal year. By cutting down the purchases from 1200 per year to 600 per year, it will save enough to make the yearly payments on the vac truck. According to Bollinger they can get the truck in a couple of months and the first payment will be waived for one year. City Attorney, Robert Myles suggested getting the request for bids out as soon as possible. **Commissioner Bell made a motion to request for bids and the purchase of a vac truck and new camera system, seconded by Mayor Spencer with all eyes being cast. Motion carried 4-0.**

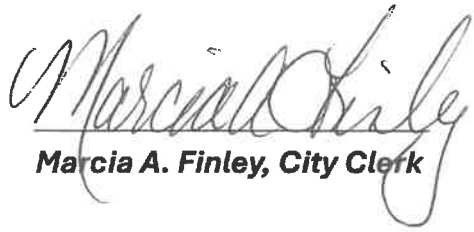

Sanitation Rates. City Clerk, Marcia Finley informed the Commission with the new contract for sanitation services there is a need to raise the sanitation prices for the customers, or the city will take a loss. City Comptroller John Harris said he has been looking into the rates and if the city raises their price \$1 per customer above Rumpke's price, the city will make approximately \$7200 a year. Currently the city makes no profit. The current rates are \$18.89 per customer and will rise to \$19.46 for the year 2026 and increase to \$20.04 per customer in the year 2027. **Commissioner Bentley made a motion to raise the sanitation rates to \$19.89 per customer beginning in February 2026, seconded by Mayor Spencer with all eyes being cast. Motion carried 4-0.** City Attorney, Robert Myles will have an Ordinance Amendment drafted for the first meeting in January.
